## What is CryptoSING?

CryptoSING is the first romanian blockchain project that's trying to bring together live music, design, photographers, videographers and DJs which can also be rented using crypto.

---

## Accomplishments

- We created the SING cryptocurrency and the SING VIP NFT which will be used together for a discount when renting services ❖  
The VIP NFTs will be given to the investors who buy the coin during the presale (of at least 0.5 EGLD) or if they own 300.000 SING during the snapshots (one NFT per address)

---

- We created the “SING First Come” NFT which we’ll give to the Twitter community and we’ll turn into SING coins after presales: •

<https://twitter.com/TrupaSing>  
(500SING each)
